# Advanced Circulation Therapy Increased Vascular Efficiency

**Cleo Active** is a mains operated home-use Bio-Feedback air pressure massage system similar to the hospital 'Flowtron' treatment, **Cleo Active** reduces swelling, boosts circulation, soothes aches & pains and can help anyone suffering from:

- ✓ **Poor circulation**
- ✓ **Irritable / restless leg syndrome**
- ✓ **Varicose veins / DVT**
- ✓ **Restricted mobility**
- ✓ **Fluid retention and swelling in the legs and feet**
- ✓ **Athletes Cramp / Lactic Acid build up**
- ✓ **Tired aching legs from being on your feet all day**
- ✓ **Reduced activity eg: office workers**
- ✓ **Lymphedema**

Legs play a vital role in circulation, helping blood flow from the feet to the heart, so it is crucial to keep them active. If they aren't regularly exercised, we put ourselves at risk of developing poor circulation, which can lead to other more serious problems.

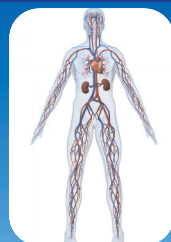

Lack of regular activity can lead to problems like varicose veins, spider veins, DVT or simply tired, aching legs. Without the help of exercise contracting the muscles and pumping blood to the heart, our legs are much more inefficient at their job. Even younger people who sit or stand for long periods are at particular risk of developing symptoms associated with the elderly if they do not take exercise. For those with limited mobility it is even more difficult to stimulate the circulation.

## The relaxing way to healthy legs

**Cleo Active** is an effortless way of keeping your legs active and healthy, simply plug in and sit back whilst the therapeutic air pressure stimulates the muscles and increases blood flow, giving you healthier, comfortable and more attractive legs.

**Cleo Active** gives you an effective treatment in just 20 minutes, ensuring the blood is flowing through the body sufficiently enough to prevent problems associated with vascular inefficiency.

Cleo Active may be used up to 3 times per day if required.

## How does Cleo Active work?

Massaging the legs and feet by pneumatic air compression which mimicks the pumping action of natural massage it carries the blood back up to the heart, and disperses toxic build up from the lymph drainage system. **Cleo Active** not only invigorates your legs, it looks after your entire body.

**Cleo Active can be beneficial for everyone, whatever your age. From the athlete to the elderly Cleo Active provides a multitude of benefits:**

- ✓ Alleviates aches & pains

## Customer & Media Reviews

"A device that gives your legs a relaxing home massage in 20 mins... highly effective whether you're into sport or have aching legs from your hectic lifestyle."

DAILY EXPRESS

"We have tried CLEO ACTIVE and found it to be comfortable and effective... The twenty minutes cycle was less time consuming than the one hour cycle recommended for our clinic machine."

Consultant in Vascular & General Surgery

"I'm a busy executive, and have suffered from swelling legs and poor circulation. The Cleo Active makes me feel brilliant, restoring vigour and shape to my legs within minutes. Perhaps most importantly, it makes me feel that I am in charge of managing my body and can do something practical rather than stress about it." Andy Green

"Excellent first time results, highly recommended for swollen ankles and fluid retention, very impressed with customer service and delivery."

Mrs O'Malley

"Cleo Active has improved my quality of life, I can recommend it to anybody who suffers from any aches and pains or circulation problems with their legs." Trevor Robshaw
